

Stop

Verse 1
When you're young
You play ball to win
Now you're big and bad
You don't give in
It's push, push, push
To be ahead of the times
King of a group
One of a kind

Verse 2
Do you hold a gun
Do you shoot to kill
Do you have headache
Do you take a pill
It's go, go, go
Until you affect someone
If you affect yourself
You might come undone

Chorus 1
No time to stop
When you want to be number one
No time to stop
Number ones have all the fun
No time to stop
You've got no time, no time
No time to stop
You've got no time, no time
No time to stop, stop, stop

Chorus 2
No time to stop
When you want to be first class
No time to stop
First class wears the pleasure mask
No time to stop
You've got no time, no time
No time to stop
You've got no time, no time
No time to stop, stop, stop

Music Break
Verse 3
There's always going to be
Someone to beat
If you're not a blue ribbon
You're out on the street
It's shove, shove, shove
Walk over anybody
So you can get there fast
And not be a nobody

Chorus 2
No time to stop
When living is bought with money
No time to stop
Lots of money or we'll go hungry
No time to stop
You've got no time, no time
No time to stop
You've got no time, no time
No time to stop, stop, stop
